

Seas Era Task 7.5

A Draft Plan of Action

SEAS ERA Meeting Rome – 7th Oct 2011

Mark C Mifsud (MCST –Malta) – Margherita Cappelletto (CNR –Italy)

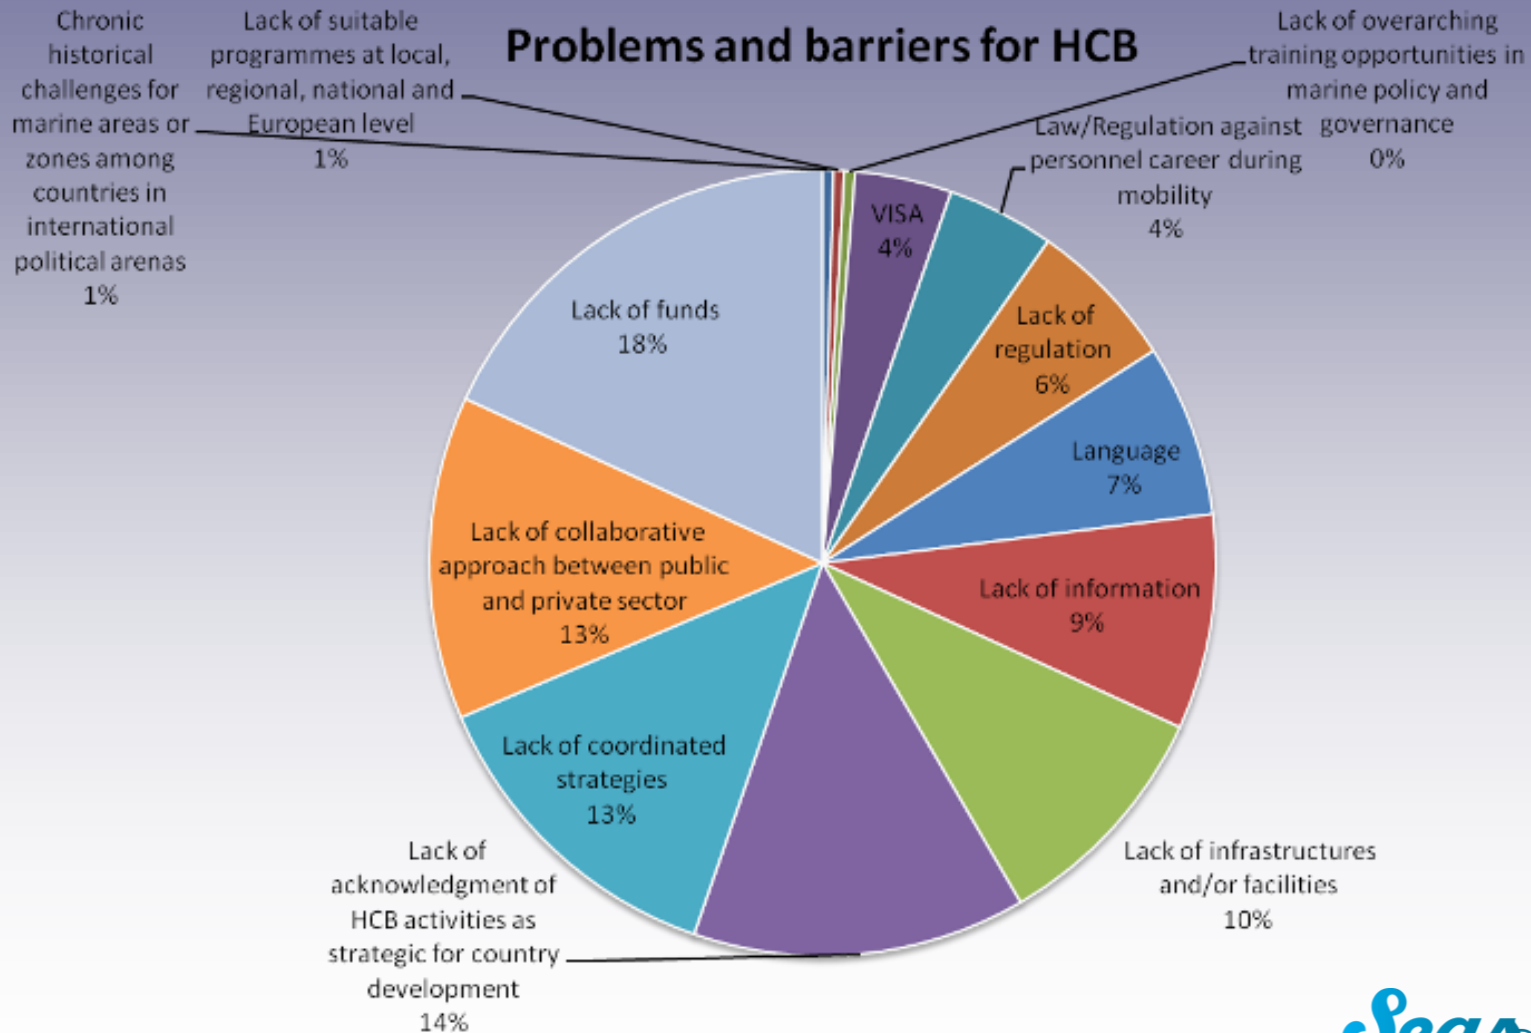

The Main Aim of the Deliverable

With the main objective of optimizing human capacity building activities in the area, the existing mechanisms will be reviewed, synergies between national, regional and European programs funding schemes will be identified and new mechanisms will be proposed (D7.5.1) – Month 24

Identified Methodology

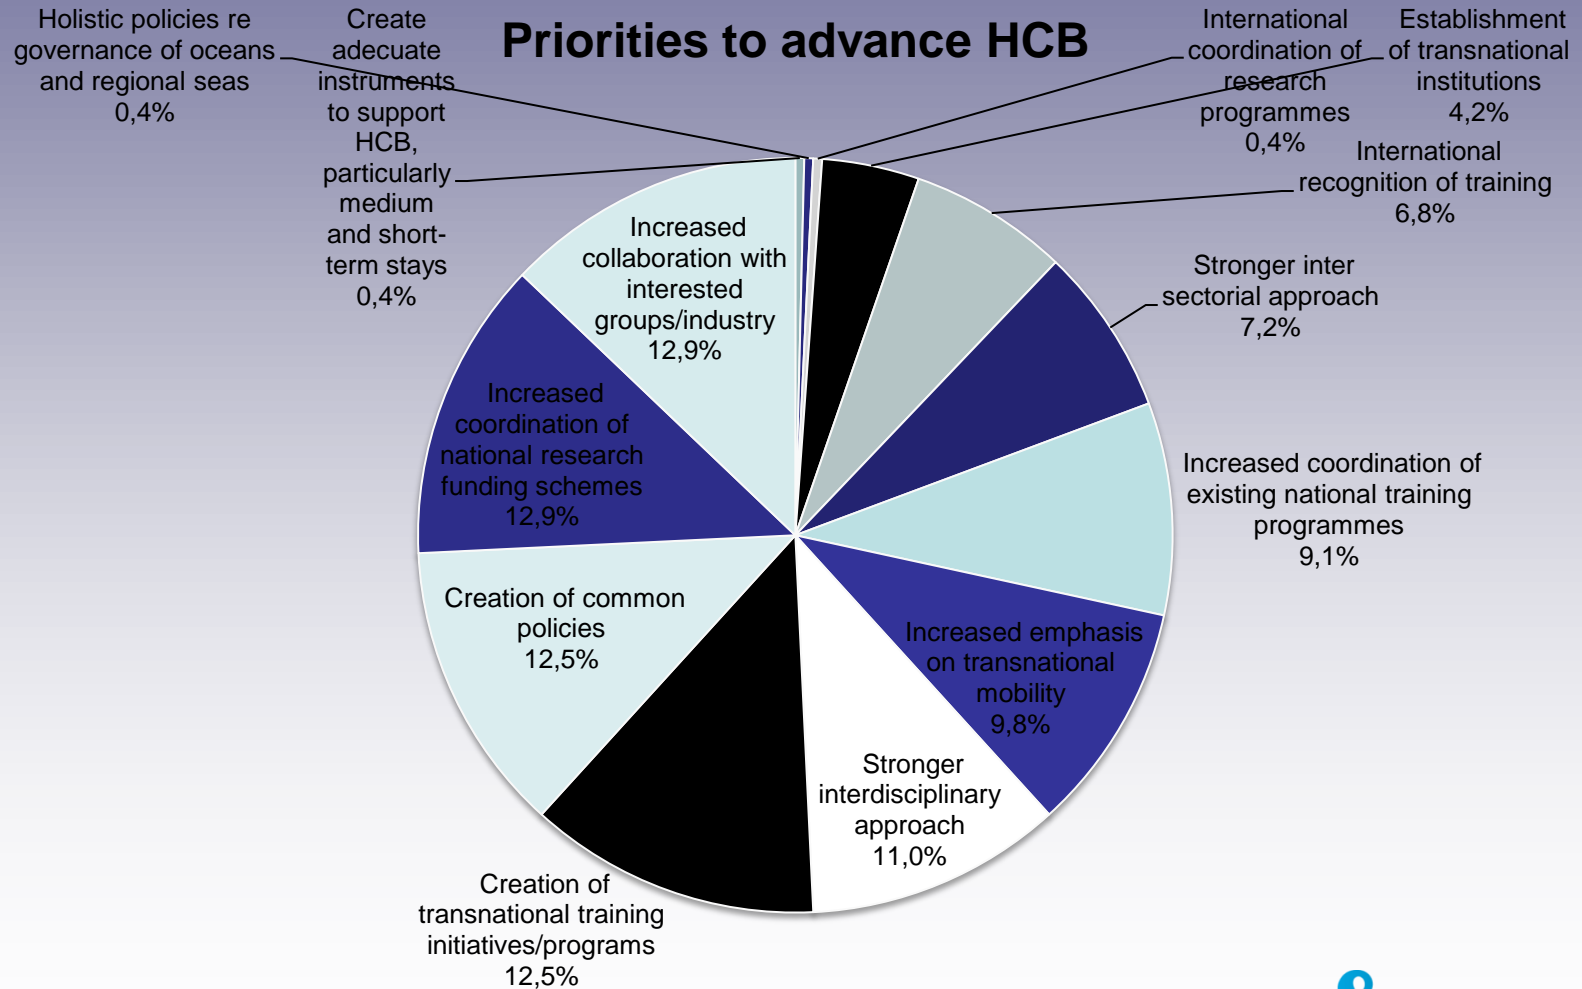

The methodology followed and best practices identified in WP5 will be used. Emphasis will be put in capacity building for new EU Mediterranean partners and non EU Mediterranean countries.

Selected Results from WP5 Mediterranean Data - 1

Selected Results from WP5

Mediterranean Data - 2

research	high		research	high	

Selected Results from WP5

Mediterranean Data - 5

action type	priorities	priorities (colour)	action type	needs	needs (colour)
school_education	high		school_education	medium	
training_internship	high		training_internship	high	
mobility	medium/ high		mobility	medium	
e_learning	medium		e_learning	medium	
other_action	high		other_action	high	

Suggested Draft Framework - 1

- Transfer of data, methodology and analysis collected through WP5 by CNR.
- Identify possible gaps in regions and or countries
- Mixed method approach suggested as follows:

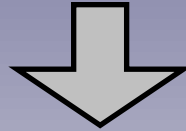

Suggested Draft Framework- 2

- Desk study mainly by using existing academic search engines on internet to identify more activities and programmes which are not already reported.
- Qualitative interviews with a number of key experts from each Mediterranean Country.
 - *Asking and probing in detail:*
 - *HCB vision for each country – eventually a whole region analysis*
 - *HCB SWOT analysis in each country – eventually a whole region analysis*
 - *HCB funding schemes utilised and needed*

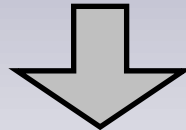

The Research Approach

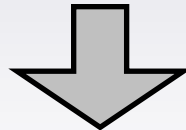

Identified and assimilate potential useful data from WP5

Desk Study using academic research engines to probe further HCB activities.

Qualitative Interviews with Key experts

Amalgamate all data – both quantitative and qualitative
formulate first draft report
