

3RD SEAS-ERA STRATEGIC FORUM
BRUSSELS, 25 FEBRUARY 2014

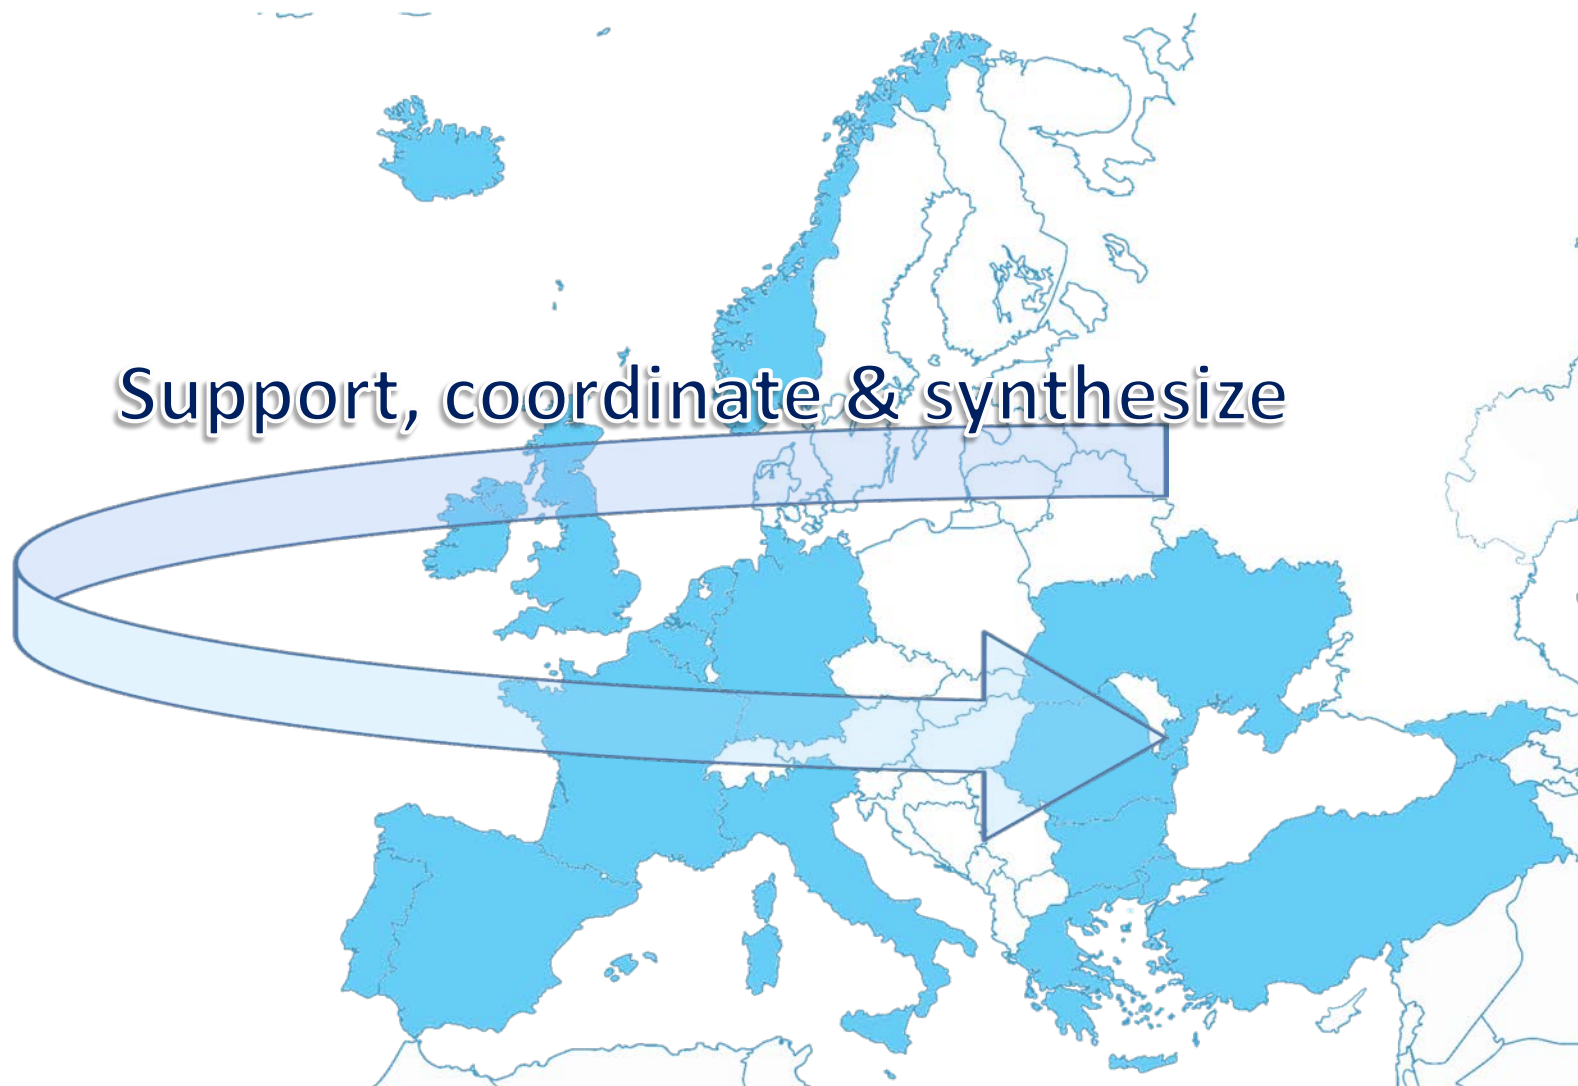

SEAS-ERA Strategic Analysis: A pan-European perspective

Niall McDonough & Nan-Chin Chu
European Marine Board

WP1 Strategic Analysis: 3 functions

1

Deliverable 1.1.1: Synthesis report on existing (sub)national (marine) science and technology strategies

(Delivered October 2011 / Month 18)

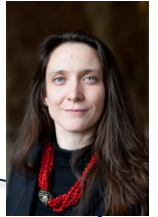

SEAS-ERA Task 1.1 – Final inventory meeting, Brussels, 24 May 2011

2

Maud Evrard

Support to the development of the SEAS-ERA Regional Strategic Research Agendas

Dedicated sessions organized at existing regional meetings

Mediterranean
17 December 2010
Athens

Black Sea
11 March 2011
Ankara

Atlantic
20 January 2011
Brussels

Non-contractual deliverable: Template for the regional SRAs (Delivered February 2011/Mo 22)

3

SEAS-ERA Pan-European Strategic Fora

1. SEAS-ERA, sister ERA-NETs and JPI Oceans: Commonalities and Synergies

Brussels, 07 September 2011

2. The SEAS-ERA Regional Science Plans: Challenges and Priorities in European Sea Basins

Brussels, 06 February 2013

3. The SEAS-ERA Legacy & Vision

Brussels, 25 February 2014

Today!

3

Deliverable 1.3.2: Pan-European Analysis of the SEAS-ERA Sea Basin Strategic Research Agendas

(Delivered February 2011 / Month 44)

Nan-Chin Chu

Conclusions & future perspectives

- Making a coordinated assessment of national strategies, policies and plans which underpin marine research is very challenging, but....
- Very useful to have information at the level of individual countries on marine research programming and investment. Also contributes to regional planning.
- Long-term and sustained info-base could be valuable but requires stable support
- “Marine” research is an exceptionally broad field. A commonly agreed classification of marine research topics/themes could assist in European coordination efforts.
- Interacting with other synergistic ERA-NETs and JPIs is crucial.

Thank you!
